

Critical Information Summary: On-Net ADSL Broadband

Information About The Service

TransACT ADSL2+ Broadband is a service that delivers high-speed broadband nationwide via our broadband network, the iiNetwork.

Requirements & Availability

ADSL2+ Broadband requires a basic telephone service in order to function. You can use a suitable telephone service from another provider and pay the standard pricing, or you can use a TransACT Phone service (from \$29.95 per month) and receive monthly bundling benefits on your broadband.

You will require an ADSL modem to connect your service. If you don't already have one, TransACT can sell or rent you a suitable device at additional cost.

ADSL2+ availability can be checked using our online coverage calculator: www.transact.com.au/internet

Minimum Term

ADSL2+ Broadband plans are available on either no fixed term, or on a 24 month agreement. A 24 month agreement gives access to discounted hardware, as well as \$0 setup when you also bundle with Phone.
